

## Part-time Research Assistant in Environmental Economics

We are hiring a part-time research assistant (~10–20 hours per week) for a period of (minimum) six months (with possibility of extension). The position will start in **February 2026** (start date flexible).

The research assistant will contribute to ongoing projects in **public policy evaluation and environmental economics**, working with [Filippo Pavanello](#) (ifo, Ludwig Maximilian University of Munich), [Giulia Valenti](#) (Fondazione Eni Enrico Mattei), and [Guglielmo Zappalà](#) (Harvard University).

Flexible work arrangements are possible. Applications will be reviewed on a rolling basis.

### Responsibilities:

- Collect, process, and visualize diverse data sources, including administrative and geospatial data
- Conduct statistical and econometric analysis
- Perform literature reviews

### Required qualifications:

- Completion or near completion of a Master's degree in Economics or a related field
- Proficiency in data analysis and programming (Stata, R, or Python)
- Solid background in econometrics and statistics

### Preferred qualifications:

- Interest in pursuing research in economics
- Experience with large datasets and cloud-based computing
- Familiarity with GitHub and version control systems

Please **submit your CV, cover letter, and (unofficial) academic transcript** to [policy4adapt@gmail.com](mailto:policy4adapt@gmail.com) using the subject line **"RA – Environmental Economics"**.
